

IN SHORT

Skill UP – Entrepreneur and professional soft-skills workshops.

The University of Porto, within the EIT Health Programme, launched, this July a series of workshops in business and professional development.

”

The Skill UP workshops aim to train students, researchers and entrepreneurs in entrepreneurship soft-skills and professional empowerment. They are free of charge and take place monthly.

EIT HEALTH PORTO

STORY

Skill UP

Workshops mensais em empreendedorismo e capacitação profissional

During these workshops, participants learned about the different stages of creating a start-up, how to build a successful business model, regulatory affairs, funds, etc., but they also learned to develop their professional skills, such as time management, leadership, creative processes, communication, and much more.

Targeted at university students, researchers and entrepreneurs, these sessions aimed to promote health innovation in the region.

There were four workshops happening in July online:

- How to start a journey in entrepreneurship | Alexandre Mendes
- CriAtivaMentes (creativity and creative processes) | Joana Moreira
- A strategic look into successful startup operations | Pedro Peixoto
- Leaderships: Managing teams and strategic vision | (tbd)
